

VACULATOR

THERMAL SERVERS 1.5 - 2.0 GALLON

Newco's premium line of Vaculator thermal servers are constructed of high quality stainless steel with an insulated faucet. Available in 1.5 Gallon or 2.0 Gallon capacity.

- Newco's thermal server has a detachable base which allows the dispenser to be removed from base for cleaning and transporting.
- Integrated drip tray for easy disposal of liquid.
- Brew through lid.
- Stainless faucet guard protects faucet from accidental drops.
- Anti fingerprint coating on outside surface of dispenser keeps unit looking clean and presentable.

Custom Branding Available:

Allow Newco's G-Lab to custom label or brand your dispenser at the factory.

*Additional charges will apply.
