

# Restaurant Café System

SPECIALTY ESPRESSO SETUP

With the growing customer demand for specialty coffees, restaurants need a simple solution to broaden their coffee menu. Newco's Restaurant Café System is an all-in-one system that includes a Café Espresso, Hot Flavor Dispenser and Mini Fridge for milk and cream storage.

With one touch, the Café Espresso can brew:

Add flavors such as vanilla and caramel to any coffee or hot chocolate with the Hot Flavor Shot machine, which requires no cleaning or sanitizing.

The Café Espresso delivers espresso and specialty drinks turning any restaurant into a café.

- Makes 6 different drinks, including layered coffee and milk with only one touch.
- Professional frothing head delivers perfectly hot or frothed milk. Easy to use, remove, and keep clean.
- Automatic cleaning cycles keep the Café Espresso performing at it's optimal level.
- Adjustable coffee spout from 3.15 to 5.5 inches reduces splash ,while accommodating a wide range of cup sizes from demitasse to grandé cup.
- Portable pour-over design with the ability to connect to bottled water. (Cannot be hard plumbed)

Part #	Height	Width	Depth	Volts	Watts	Amps	Weight
152774	23.5"	11.89"	17.75"	120 V	1450W	12A	35 lbs.

The Newco Mini fridge is a stylish and convenient way to keep your milk cool and displayed right next to your Café Espresso Coffee machine. Keeping milk at the right temperature is crucial in the world of coffee.

- Fits a half gallon of milk
